(54) MAP DISPLAY DEVICE

(57)Abstract:

PURPOSE: To make a map displayed on a screen scroll along a road.
CONSTITUTION: Map information and road information recorded in a CD-ROM2a is read out by a CD-ROM drive 2, the prescribed map and road are displayed on a display section 5 by a system control section 6, while a cursor is displayed on the prescribed road. When the device is set to a road scroll mode by a mode changeover button 3a of a controller 3, a scroll control section 6a makes a map and a road scroll in the prescribed direction so that a cursor displayed on the display section 5 is moved along a road corresponding to the direction to which a joy stick 4 is pressed. Also, a signal from a GPS receiving section 1 is supplied to the system control section 6.
